Transforming imagination into functionality, Neolith Facades are now available. After years of development, Neolith is the superior standard in surfaces.

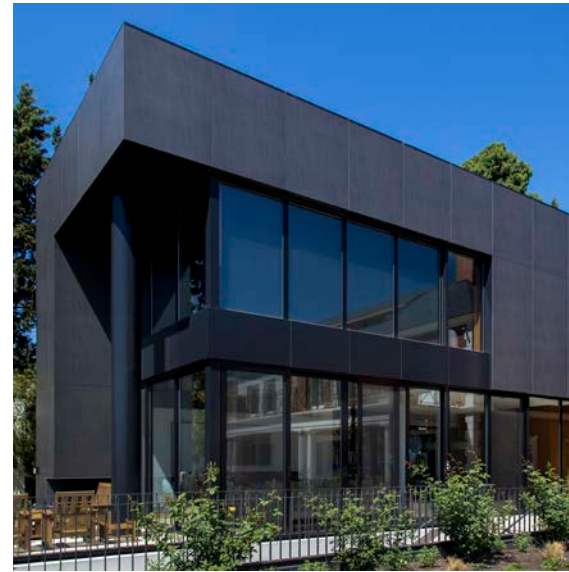

Neolith Facades have redefined European architecture. Neolith is suited to a range of cladding applications and can be used with multiple cladding systems.

Talk to our Neolith Specialists today to discuss Neolith's certifications and which cladding system best suits your application. Add a complete and consistent finish to your next project with Neolith Facades.

Produced to the highest international standards, Neolith is certified against the most stringent European and Australian testing for combustibility and flame/smoke resistance.

Arctic White

Being heat, scratch, stain & UV-resistant, Neolith is ideal for use outdoors. Alongside this, Neolith can also withstand extreme weather conditions and is waterproof.

Basalt Black

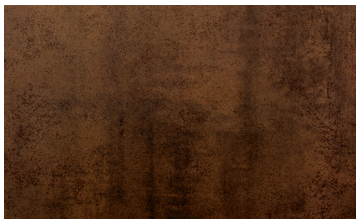

## MAKE A STATEMENT WITH NEOLITH FACADES

## A NEW WAY OF LOOKING AT SHAPES AND SPACES

Neolith's technology is unprecedented in the construction industry. As a result, Neolith is the new superior standard in surfaces.

Iron Corten

In Australia, Neolith has been certified by the CSIRO for AS 1530.1 (Combustibility) and AS 1530.3 (Ignitability, Flame Propagation, Heat and Smoke Release) Certified. Neolith and CDK Stone have worked with a range of leading cladding systems so Neolith can be used on most demanding applications.
