NEOLITH... THE NATURAL CHOICE

Transforming imagination into functionality, Neolith Sintered Stone is the premium fashion stone. Imported directly from Europe, Neolith synergises the utmost design principles with functionality, resulting in a scratch, stain and heat-resistant surface. Made to the highest international standards, Neolith is available in a wide range of styles and textures and is suitable for the most demanding applications.

Neolith is synonymous with excellence and obsession for detail. Its striking designs and superior technical characteristics make it an ideal material for kitchens, bathrooms, furnishings, display fittings, shop fittings, cupboards, work surfaces, wall and floor cladding.

Redefining architecture around the globe, Neolith has featured in numerous award winning and innovative designs. After years of research and innovation, Neolith is 100% ecofriendly. Consisting of all raw materials pressed under immense pressure, Neolith eliminates the need for any resin or polymer which is the basis of other engineered stones.

NEOLITH APPLICATIONS: A NEW WAY OF LOOKING AT SHAPES AND SPACES

VOGUE BENCHTOPS & BATHROOMS

Whether you are after a lavish lifestyle, enviable apartment or creating your dream home, Neolith creates a truly elegant look. With its natural allure and unparalleled characteristics, Neolith is ideal for any kitchen benchtop or bathroom vanity. Adding a touch of elegance to any design, Neolith has a wide range of styles and finishes to suit every home.

STYLISH FLOORS & WALLS

Neolith's large sizes create a uniformed, consistent and chic look across floors and walls. Due to its durability, Neolith is an extremely hard-wearing material that can withstand heavy foot traffic areas and abrasions.

OPULENT SURROUNDS & FEATURES

Create a consistent and alluring style across any space with Neolith features and surrounds. With unlimited applications, Neolith adds a touch of opulence to fireplaces, BBQ areas, feature walls, furniture, cabinetry, pool surroundings and more.

FASHIONABLE FACADES

International designers are being fashion-forward with Neolith facades. Due to the innate beauty, superior technology, resistance against temperature and UV-fading, Neolith is ideal for ventilated facade systems and curtain wall applications. With so many colour combinations and continuous styles, this Sintered Stone creates an impressive facade solution.

GRAND COMMERCIAL & RETAIL

Redefining the way designers are creating commercial and retail spaces, Neolith pushes the boundaries of style to create truly memorable designs. With an endless number of applications, Neolith's styles can be crafted to reverberate any desire.

BOOKMATCHING

Neolith has created a reversed style for it's Calacatta, Estatuario and Blanco Carrara designs - meaning a bookmatched pattern can be achieved. Bookmatching is the design practice of matching two stones together so they mirror each other - giving the illusion of an open book. This effect is perfect for continuing Neolith's veining or natural grain. This range can be bookmatched on all four edges of the design.

NEOLITH SINTERED STONE
COMPACT SURFACE FORMAT
SIZE & THICKNESS

3mm is ideal for use in indoor vertical applications such as kitchen cabinets and drawers, wardrobes, doors and office partitions. This thickness is also ideal for projects where the weight of the material is a consideration such as within an elevator.

6mm is ideal for use in flooring, walls (both indoors and outdoors), stairs, pool surrounds and exterior facades.

12mm is ideal for kitchen and bathroom benchtops. This size allows for better utilisation of the surface, as well as reduced waste. For instance, one large slab can be utilised for two full average sized benchtops.

20mm is ideal for kitchen benchtops. Inspired by a growing demand among designers and specifiers for thicker kitchen benchtops.

Please contact CDK Stone for available colours, sizes, thicknesses and finishes.

2600 x 1200 x 6mm

NEOLITH SINTERED STONE
AVAILABLE IN
4 DIFFERENT FINISHES

SATIN
Neolith's original finish is characterised by its natural matte look and a slightly textured feel.

SILK
The Silk finish is much softer to the touch. The smooth nature of the surface is achieved through Neolith's Airless Pistol [NAP] technology.

POLISHED
The Polished finish adds shine, depth, and a reflection that stands out through its complete flatness and a touch of elegance.

RIVERWASHED
Neolith's Riverwashed finish is compared to a bush hammered or aged finish and adds a touch of realism to Neolith's range.

TECHNICAL FEATURES

SCRATCH RESISTANT
Resistant to scratching and abrasion due to the hardness of the surface.

RESISTANT TO HIGH TEMPERATURES
Does not burn in contact with fire or let off smoke or toxic substances.

RESISTANT TO UV RAYS
Does not deteriorate from exposure to the sun or extreme temperatures.

EASY TO CLEAN
Resistant to chemical cleaning agents.

WATERPROOF
An absorption level of near zero makes it resistant to stains.

SUITABLE FOR HEAVY TRAFFIC
Due to the hardness of the surface.

RESISTANT TO ICE AND FREEZING
Neolith is not damaged by low temperatures.

HYGIENIC
Completely suitable for contact with food. Does not release harmful substances.

100% RECYCLABLE
Up to 52% of any Neolith slab is comprised of recycled raw materials.

100% NATURAL
Resin-free. Does not release any harmful substances into the environment.

LIGHT
The 3mm slab is only 7kg/m2 and the 12mm slab is 30kg/m2.
