# This mixture contains the following substances of very high concern (SVHC) which are included in the Candidate List according to Article 59 of REACH

None (below the concentration limit)

This mixture contains the following substances of very high concern (SVHC) which are subject to authorisation according to Annex XIV of REACH

None (below the concentration limit)

#### Additional information

All ingredients of this mixture are (pre)registered according to REACH regulation. Full text of H- and EUH-statements: see section 16.

# **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

# Trade name :

Revision date : Print date : Lithofin ALGEX

08.04.2021 13.04.2021 Version (Revision) :

4.2.1 (4.2.0)

# **General information**

When in doubt or if symptoms are observed, get medical advice. Never give anything by mouth to an unconscious person or a person with cramps. If unconscious place in recovery position and seek medical advice.

# **Following inhalation**

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

# In case of skin contact

After contact with skin, wash immediately with plenty of water and soap. Immediately remove any contaminated clothing, shoes or stockings. Do not wash with: Cleaning agent, acidic Cleaning agent, alkaline Solvents/Thinner

### After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Protect uninjured eye.

# After ingestion

Call a physician immediately. Keep at rest. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Do NOT induce vomiting.

# Self-protection of the first aider

First aider: Pay attention to self-protection!

# 4.2 Most important symptoms and effects, both acute and delayed

No information available.

# 4.3 Indication of any immediate medical attention and special treatment needed Notes for the doctor

Treat symptomatically.

# Special treatment

First Aid, decontamination, treatment of symptoms.

# **SECTION 5: Firefighting measures**

# 5.1 Extinguishing media

Suitable extinguishing media

Water spray jet ABC-powder Foam

# Unsuitable extinguishing media

Full water jet Strong water jet

# 5.2 Special hazards arising from the substance or mixture

**Hazardous combustion products** 

Carbon monoxide Carbon dioxide (CO2)

# 5.3 Advice for firefighters

Use suitable breathing apparatus.

# Special protective equipment for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.

### 5.4 Additional information

Use water spray jet to protect personnel and to cool endangered containers. Do not allow run-off from fire-fighting to enter drains or water courses. Do not inhale explosion and combustion gases. The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

### **SECTION 6: Accidental release measures**

# 6.1 Personal precautions, protective equipment and emergency procedures

Wear personal protection equipment (refer to section 8). Provide adequate ventilation. Remove persons to safety.

# 6.2 Environmental precautions

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

# 6.3 Methods and material for containment and cleaning up

Safety Data Sheet					
according to Regulation (	EC	) No. 1907	/2006 (	(REACH)	

# Trade name :

Revision date : Print date :

# Lithofin ALGEX

08.04.2021 13.04.2021 Version (Revision) :

4.2.1 (4.2.0)

# DIN EN 166 Skin protection Hand protection Suitable gloves type : Gloves with long cuffs Suitable material : NBR (Nitrile rubber). 0.4m

**Suitable material** : NBR (Nitrile rubber), 0,4mm, >8h; Butyl caoutchouc, 0,5mm, >8h; FKM (fluoro rubber), 0,7mm, >8h;

**Recommended glove articles** : Manufacturer KCL GmbH/Eichenzell-Germany; Ansell/Yarra City-Australia Or comparable articles from other companies.

# Additional hand protection measures : Check leak tightness/impermeability prior to use.

**Remark** : Breakthrough times and swelling properties of the material must be taken into consideration. The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Barrier creams are not substitutes for body protection.

# Body protection

Protective clothing.

Suitable protective clothing : Chemical protection clothing Chemical resistant safety shoes

Required properties : alkali-resistant.

Protective clothing. : DIN EN 13034 DIN EN 14605

Chemical resistant safety shoes : DIN EN ISO 20345

**Remark** : Barrier creams are not substitutes for body protection.

# **Respiratory protection**

Usually no personal respirative protection necessary. Respiratory protection necessary at: insufficient ventilation aerosol or mist formation. high concentrations spray application

# Suitable respiratory protection apparatus

Combination filtering device (EN 14387) Half-face mask (DIN EN 140) ABEK-P1

#### Remark

Use only respiratory protection equipment with CE-symbol including four digit test number. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190).

# **General information**

Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500. When using do not eat, drink, smoke, sniff. Avoid contact with skin, eyes and clothes. Remove contaminated, saturated clothing immediately. Wash contaminated clothing prior to re-use. Wash hands before breaks and after work. Apply skin care products after work. Do not breathe gas/fumes/vapour/spray.

# **SECTION 9: Physical and chemical properties**

# 9.1 Information on basic physical and chemical properties

Appearance :	liquid					
Colour :	blue					
Odour :	perfumed

(\* VOC-EC = "Volatile organic compound (VOC)" means any organic compound having an initial boiling point less than or equal to 250°C measured at a standard pressure of 101,3 kPa; VOC-value in g/L)

# 9.2 Other information

None

# **SECTION 10: Stability and reactivity**

# 10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

# **10.2 Chemical stability**

The product is chemically stable under recommended conditions of storage, use and temperature.

# **10.3 Possibility of hazardous reactions**

No hazardous reaction when handled and stored according to provisions.

# 10.4 Conditions to avoid

Stable under recommended storage and handling conditions.

# **10.5** Incompatible materials

The product develops hydrogen in an aqueous solution in contact with metals.

# **10.6 Hazardous decomposition products**

Does not decompose when used for intended uses.

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

# Acute toxicity

Acute oral toxicity

Based on available data, the classification criteria are not met.

ficate of all contents

Safety Data She according to Regulat	e <b>t</b> tion (EC) No. 1907/2006 (REACH)		( EN / D )
	Lithofin ALGEX	Version (Revision) :	4.2.1 (4.2.0)
Print date :	13.04.2021		7.2.1 (4.2.0)

Observe local regulations concerning effluent treatment. Before discharge into sewage plants the product normally needs to be neutralised.

# 12.2 Persistence and degradability

There are no data available on the preparation/mixture itself.

# Biodegradation

The surfactants contained in this mixture comply with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

# 12.3 Bioaccumulative potential

There are no data available on the preparation/mixture itself.

# 12.4 Mobility in soil

There are no data available on the preparation/mixture itself.

# 12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

# 12.6 Endocrine disrupting properties

No information available.

# 12.7 Other adverse effects

There are no data available on the preparation/mixture itself.

### 12.8 Additional ecotoxicological information

Additional information

The product has not been tested.

# **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

Dispose of waste according to applicable legislation.

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

# Directive 2008/98/EC (Waste Framework Directive)

# Before intended use

#### Waste codes/waste designations according to EWC/AVV

Waste code (EWC/AVV): 07 06 08\* (other still bottoms and reaction residues)

#### After intended use

Do not allow to enter into surface water or drains. Non-contaminated packages may be recycled. Packing which cannot be properly cleaned must be disposed of. Delivery to an approved waste disposal company.

# **Disposal operations**

Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of.

# Waste codes/waste designations according to EWC/AVV

Waste code packaging: 15 01 10\*

# 13.2 Additional information

These codes are assigned based upon the most common uses for this material and may not reflect contaminants resulting from actual use.

# **SECTION 14: Transport information**

# 14.1 UN number

UN 1760

# 14.2 UN proper shipping name

Land transport (ADR/RID)

CORROSIVE LIQUID, N.O.S. (QUATERNARY AMMONIUM COMPOUNDS)

#### Sea transport (IMDG)

CORROSIVE LIQUID, N.O.S. (QUATERNARY AMMONIUM COMPOUNDS)

# **SECTION 15: Regulatory information**

# <sup>15.1</sup> Safety, health and environmental regulations/legislation specific for the substance or mixture

# **EU** legislation

REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on classification, labelling and packaging of substances and mixtures (clp)

DIRECTIVE 2008/98/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on waste (2000/532/EC) EN 2:1992 (DIN EN 2:2005-01)

#### Authorisations and/or restrictions on use

# **Restrictions on use**

Use restriction according to REACH annex XVII, no.: 3

### **Restrictions of occupation**

Observe restrictions to employment for juvenils according to the 'juvenile work protection guideline' (94/33/EC). Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers.

#### Other regulations (EU)

Regulation (EC) No. 648/2004 (Detergents regulation)

Directive 98/24/EC of 7 April 1998 on the protection of the health and safety of workers from the risks related to chemical agents at work. (Directive 2000/39/EC, Directive 2006/15/EC, Directive 2009/161/EC) REGULATION (EU) No 649/2012 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning the export and import of hazardous chemicals [PIC-Regulation]: Not listed.
